

BİM 308 – Web Server Programming

Project Proposal Form

Project Name: **University Department Information System**

Project Team : **1. Yasin Tohan - 11945863940**

Statement of Purpose (A brief description of the project.)

It is a website where university students can access a lot of information about the department they study. On the site, they will be able to access announcements, teachers, all the courses that are and are not opened this semester, the pages of the courses and the weekly plan, homework and files on the course pages. This website will be a clone of our university's "<https://ceng.eskisehir.edu.tr/>" page. There will also be student and admin access. Admin can add or remove announcements, courses, users, students and all other features.
